

CSK- Rotary Screw Compressors From 7,5 To 30 HP

Simple and Smart

Engineered for high performance efficiency and reliability, the CSK air compressor series can meet the compressed air demands of automotive repair industries, general maintenance and industry applications. Quiet by design, the CSK can be installed almost anywhere and close to your application, without disturbing your working environment. The CSK simply smarter by design.

User benefits

Built to last

Design for continuous and hard working condition.

Two stage inlet filtration

To protect internal components.

Easy and fast maintenance

Practical design ensures easy access to belts, oil and filters.

User friendly controller

Simple and smart warning and maintenance message.

Small footprint

Compresses stores and processes air using less than 1m².

TECHNICAL DATA
